Sender Policy Framework

A host's Sender Policy Framework (SPF) describes who can send mail on its behalf. This is done by publishing an SPF record containing a series of rules. Each rule consists of a qualifier followed by a specification of which domains to apply this qualifier to. For more information please see openspf.org.

Warning: It appears that this host does not have an SPF record. Setting up an SPF record helps prevent the delivery of forged emails from your domain.

DMARC

DMARC (Domain-based Message Authentication, Reporting and Conformance) is a mechanism for domain owners to indicate how mail purporting to originate from their domain should be authenticated. It builds on SPF and DKIM, providing a method to set policy and to give reporting of failures. For more information please see dmarc.org.

This host does not have a DMARC record.

Les objets connectés : Big Data / Big Brother

The screenshot shows the Thingful website interface. At the top, the URL is www.thingful.net/?lat=45.749183833023764&lng=4.8859065771102905&z=18&thing=qgzrvkg4. Below the URL bar, there are search filters: "What data do you want?" and "Where?". The main content is a satellite map of a city. A purple circular overlay on the map highlights a specific location. A data overlay box titled "Transport" and "Global Bike Share: 3012 - PLACE DU CHÂTEAU" is visible. The box includes a "Refresh" button and an "Open" link. Below this, a table shows the following data:

Bikes	10
Spaces	15
Total docks	25

Below the table, it says "Updated 2 years ago" and a "Watch" button. At the bottom of the page, there is a banner with the text "A Search Engine for the Internet of Things" and "Find & use open IoT data from around the world". A blue button labeled "See how Thingful can help" is also present.

Les objets connectés : Big Data / Big Brother

The screenshot shows the Thingful website interface. At the top, a browser address bar displays the URL: `www.thingful.net/?lat=45.47987347203981&lng=4.3128204345703125&z=12&thing=2rayz25g`. Below the browser bar, the Thingful search interface is visible, featuring a search bar with the placeholder text "What data do you want?" and a location selector with the placeholder text "Where?". The main content area is a satellite map of a region in France, densely populated with blue circular markers representing IoT data points. A popup window titled "Miscellaneous" and "Donnees VERA" is overlaid on the map. This popup contains a table of temperature data and a "Watch" button.

Donnees VERA	
Temp_Chalet	20.7 °C
Temp_Entree	24.1 °C
Temp_Ext_Cours	13.8 °C
Temp_Ext_Jardin	13.1 °C
Temp_Piscine	25.9 °C
